

## Trelligence Welcomes Applied Software as Affinity Authorized Reseller

**Houston, TX, USA (February 2, 2009)** – Trelligence, Inc., a leading provider of architectural programming and schematic design software, announced the addition of Applied Software to its growing reseller network. Applied Software is one of the leaders in its field, and provides over 4,500 clients with consulting services, as well as complete solutions – including hardware, software, installation, configuration, training, and ongoing support post-deployment.

“We are pleased to welcome Applied Software as a reseller of Trelligence Affinity. Affinity’s unique focus on programming and early design, and its ability to extend the benefits of BIM to early design through seamless integration with Revit® Architecture and other BIM tools, will complement Applied Software’s reputation as a full-service BIM leader that provides clients with innovative, realistic, and technically sound solutions,” says Dino Agrella, Director of Sales for Trelligence.

“As leading providers of Building Information Modeling solutions, we continually seek partners who can provide our clients with complementary solutions that extend and enhance good design. Trelligence’s Affinity solution will allow our clients to enhance their Autodesk Revit designs and provide their clients with more comprehensive solutions,” stated Ellen Valentine, Vice President of Marketing for Applied Software.

### About Applied Software

Headquartered in Atlanta, with a sales, service, and training center in Charlotte, North Carolina, Applied Software is one of the largest Autodesk resellers in the region. An AutoCAD Authorized Reseller since 1982, the company provides consulting, implementation, customization, and training services, as well as mentoring and project management to architects, engineers, and facility managers in the commercial, government, and educational sectors of the architecture, engineering, and construction (AEC) industry. A leader in the emerging field of Building Information Modeling (BIM), Applied Software is recognized as an Autodesk Premier Solutions Provider in the Building Solutions and Education Solutions Divisions. Applied Software is also an Authorized Autodesk Training Center (ATC) employing a team of architects, engineers, and designers with real-world experience to assist and educate its customers in the use of Autodesk solutions.
