About Trelligence:

Trelligence is a Houston-based software company focused on enhancing the early architectural design process with *real-time design+analysis tools* built on top of *domain-specific knowledge templates*. Targeted at the worldwide architectural, engineering, construction, and owner/developer (AECO) market, the **Trelligence Affinity™** patent-pending software integrates with existing CAD and other design tools, including ArchiCAD®, Revit® Architecture, and Google SketchUp®, extending the benefits of Building Information Modeling (BIM) – faster planning, less rework, and better team communication – to the early design phase of complex building projects.
