

Trelligence Launches Affinity Release 9.0 at Autodesk University 2014 – Booth 186

Las Vegas, NV, USA (December 2, 2014) – Trelligence, Inc. announces the availability of **Trelligence Affinity™ 9.0**, the latest release of its **unique architectural programming, conceptual and schematic design, and design validation software** at Autodesk University 2014 today. Trelligence is an established member of the **Autodesk Authorized Developer** network, delivering bi-directional integration between Affinity and **Autodesk® Revit® Architecture** that provides critical interoperability between the program and design phases of building projects. The Trelligence team will hold live demos of the new Affinity 9.0 release at **booth 186** throughout the show.

New features in Affinity 9.0 include:

- **Enhanced support for BIM integration** - Autodesk® *Revit® Architecture 2015*, Trimble *SketchUp® Pro 2015*, Bentley *AECOsim Building Designer V8i*, ARCHIBUS®, IES *VE-Gaia* and *VE-Navigator* for LEED® and Graphisoft® *ArchiCAD® 16, 17, & 18*.
- **Revit-specific Integration Enhancements:**
 - **Drag and drop program departments** directly onto the Revit level at once
 - **Drag and drop program rooms** into Revit – option to exclude boundary lines for renovations
 - **Select phase** – pull program data from a specific phase or program option
 - **Swap rooms** and relevant room data, maintaining a link to the program
 - **Select the Affinity design scenario** to sync to Revit
 - **See target program area in room tags** or in the room properties in Revit
- **Affinity Programming** – New headcount and capacity drivers for mobile workspace strategies.
- **Affinity Stacking Diagram** – User-customizable views and capacity indicators.
- **Google Earth Overlay** – View satellite image overlay on the building site.
- **Added support for international projects** – New currency formats, double-byte language support
- **Team Projects / Repository** – Added visibility of locked elements and performance improvements

AU Expo Hours

Tuesday, December 2 nd :	6:30 PM – 9:30 PM [Community Reception]
Wednesday, December 3 rd :	11:30 AM – 3:00 PM
Thursday, December 4 th :	6:30 PM – 9:30 PM [AUGI Reception]
	11:30 AM – 3:00 PM

About Trelligence, Inc.

Trelligence Affinity delivers architectural programming, space planning, reporting, and design validation tools that assist the architect and owner in effectively planning, designing and managing building space – whether new construction, renovation, or move management. The software provides a collaborative platform and integration with leading BIM and IWMS/CAFM software for an efficient and integrated design workflow that enables real-time design-to-program analysis and unprecedented early sustainability analysis.
