

About Kasian

Kasian is a global architecture, interior design and planning firm with nearly 350 staff across eight offices in Canada, Asia, and the Middle East. Kasian provides award winning design solutions for transportation infrastructure, education, recreational, public and health care facilities, corporate offices, and hospitality and retail environments. Our unique approach brings clients and end users directly into the design development process to ensure solutions are relevant and timely. Kasian designs include the Vancouver International Airport Link Building, the BCIT Aerospace Technology Campus, the University of British Columbia Thunderbird Arena, the Calgary Courts Centre, the Edmonton Epcor tower, the MacEwan Robbins Health Learning Centre, and the Alberta Children's Hospital.
